# COREDELUXE BLACK BUMPER PLATES

## PRODUCT OVERVIEW

Coredeluxe Black Bumper Plates are an IWF standard 450MM diameter, minimal surface imperfections, and within +/-1% of its weight tolerance. Combined with stainless steel inserts and quality virgin rubber, they offer a dead bounce and durability rarely seen in an economical plate. These Black Bumper Plates are available in sizes of 10LB, 15LB, 25LB, 35LB and 45LB only.

## Virgin Rubber

### 100% virgin rubber

100% virgin rubber with no smell or odor which affects human body or health.

## Accurate Weight

### +/- 3 Grams

The weight tolerance of Coredeluxe IWF competition bumper plates could be within +/- 3 Grams.

## High-level customization

### Customization allowed

High-level customized and being capable to use as Crossfit Game Plates.

## Features

- 1. Unique design makes it more strong than other brand plates, the center ring will not remove after long time drop.
- 2. Each bumper plate reaches IWF standard, 450mm diameter.
- 3. Each bumper plate is much smoother than High-Temps, but they won't wear sooner. Recommend to use in rubber floor.
- 4. High quality economic bumper plates with better price. We use better rubber than other brand in the market. All our bumper plates are made in good condition and are precision made.
- 5. Average of 88 on the Shore A durometer scale, this makes our Coredeluxe's KG/LB Black Bumper Plates with low bounce and fairly quiet.
- 6. Customized available. Making your unique KG Color Bumper Plates.
- 7. With Olympic colorful code, which makes the plates easy for users to identify the weight.
