CHROME POWER LIFTING PLATES

PRODUCT OVERVIEW

Coredeluxe chrome power lifting plates come in various weights from 0.25kg up to 25kg with a high-quality chrome finish. The Coredeluxe chrome power lifting plates are made of solid steel with a premium chrome finish and excellent accuracy in weight. These weight plates are fully machine calibrated and thus guarantee an extremely low weight deviation of only +/- 10 grams. This makes these weight plates perfect for powerlifting competitions where accurate weight determination is required. These solid steel weight plates are also among the thinnest in the world, allowing a maximum amount of weight to be loaded on the weight bar. These power lifting plates are fully chrome plated and the inner surface is provided on both sides with a transparent vinyl coating with weight indication and COREDELUXE logo in international color coding. The colour-coded outer ring that is grooved into the weight plates makes it easy to recognize the weights when they are loaded on the weight bar.

Features

● Solid Steel

● Hard Chrome Coating

● Vinyl Weight Markings

FEATURES▼

- 1. Coredeluxe chrome powerlifting plates are high precision weight plates made of solid steel with a high-end chrome finish and stronger, more durable and thinner than cast iron or cast steel.
- 2. International Powerlifting Association certified, and Meets or exceeds IPF and all other powerlifting organization standards.
- 3. Highly accurate in weight and machine calibrated with a deviation of up to only +/-10 grams, precision drilling of approximately 50.5 mm for a close connection to the barbell bar., and extremely thin design for maximum load capacity on the barbell.
- 4. Fully chrome plated with a transparent vinyl coating inside, with weight indication in kilograms and COREDELUXE logo in international colour code.
- 5. IWF Standard, Quality, IWF Standard and quality give you best Olympic feeling.
- 6. Coredeluxe chrome powerlifting plates are with minimal deviation, extra thin for maximum load capacity on the barbell, high-quality polished and chrome plated, colour-coded outer ring for easy weight recognition on the barbell bar. Available in different weights from 0.25 kg to 25 kg.

0.25KG 4.5MM

Material:	Solid Steel
Weight tolerance:	+/- 10 Grams
Collar opening:	50.6+/-0.1mm
Color:	Black
Thickness:	4.5mm

0.5KG 6.0MM

Material:	Solid Steel
Weight tolerance:	+/- 10 Grams
Collar opening:	50.6+/-0.1mm
Color:	Black
Thickness:	6mm

1.25KG 10MM

Material:	Solid Steel
Weight tolerance:	+/- 10 Grams
Collar opening:	50.6+/-0.1mm
Color:	Black
Thickness:	10mm

2.5KG 14MM

Material:	Solid Steel
Weight tolerance:	+/- 10 Grams
Collar opening:	50.6+/-0.1mm
Color:	Black
Thickness:	14mm

5.0KG 18.8MM

Material:	Solid Steel
Weight tolerance:	+/- 10 Grams
Collar opening:	50.6+/-0.1mm
Color:	White
Thickness:	18.8mm

10KG 18.4MM

Material:	Solid Steel
Weight tolerance:	+/- 10 Grams
Collar opening:	50.6+/-0.1mm
Color:	Green
Thickness:	18.4mm

15KG 18.4MM

Material:	Solid Steel
Weight tolerance:	+/- 10 Grams
Collar opening:	50.6+/-0.1mm
Color:	Yellow
Thickness:	18.4mm

20KG 19.2MM

Material:	Solid Steel
Weight tolerance:	+/- 10 Grams
Collar opening:	50.6+/-0.1mm
Color:	Blue
Thickness:	19.2mm

25KG 23.1MM

Material:	Solid Steel
Weight tolerance:	+/- 10 Grams
Collar opening:	50.6+/-0.1mm
Color:	Red
Thickness:	23.1mm
